Summary

Full-Stack Web Developer (MERN) with production experience building responsive, scalable web applications end-to-end – UI, REST APIs, and database. Strong debugging and problem-solving skills, comfortable working independently and delivering to deadlines. Microsoft Azure Certified (AZ-900); 200+ LeetCode problems solved.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, SQL, HTML5, CSS3
Frontend: React.js, Redux Toolkit, Responsive Web Design, Tailwind CSS, React Router
Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture, Microservices
Databases: MongoDB (Aggregation Pipelines), MySQL, Redis
Tools & Cloud: Git, GitHub, Postman, AWS (Lambda, API Gateway, EC2, S3), Docker, VS Code

Experience

Associate Software Engineer (Trainee) Apr 2026 – Present
iProgrammer Solutions Pvt. Ltd., Pune

- Build and maintain REST APIs in a microservices setup using Node.js, Express.js, MySQL, and Redis on AWS Serverless.
- Implemented secure JWT-based authentication with role-based access control and protected routes.
- Debug and optimize backend logic and SQL queries for performance; collaborate through code reviews and Git-based workflows to ship production-ready features.

Full-Stack Developer Intern Dec 2025 – Mar 2026
Talentrise Technokrate, Remote

- Delivered 3+ production MERN applications using MVC architecture, working independently to meet client deadlines.
- Built and integrated 15+ REST APIs with JWT authentication and validation; optimized MongoDB aggregation pipelines, cutting query latency by 40%.

Front-End Developer Intern Dec 2024 – Mar 2025
RightShift InfoTech, Pune

- Built responsive React.js interfaces and a reusable component library, integrating 8+ REST APIs with Axios.
- Reduced code duplication by 30% and improved page load times by 25% through lazy loading and component optimization.

Projects

E-Vikreta – Multi-Vendor Marketplace *MERN, Redux Toolkit, WhatsApp API*

- Built a full-stack marketplace with 10+ REST APIs for auth, vendor/product management, and order processing, supporting 100+ concurrent users.
- Integrated WhatsApp Business API for real-time order notifications, cutting vendor response time from 15 to 6 minutes – awarded **Best Final Year Project**.

Codexa AI – AI-Powered Code Reviewer *React.js, Node.js, Express.js, Gemini API*

- Built a REST backend integrating Google Gemini AI to flag code quality, security, and performance issues, with custom prompt engineering and rate limiting (99% uptime).
- Designed a responsive React frontend with real-time code input and syntax highlighting for instant feedback.

Certifications & Achievements

Microsoft Certified: Azure Fundamentals (AZ-900) | 200+ DSA problems on LeetCode | Best Final Year Project Award

Education

B.E., Electronics and Telecommunication Engineering 2021 – 2025
RMD Sinhgad Technical Institutes Campus, Pune
